Hi Soledad,

Appreciate the estimated timeframe for notification and will look forward to it. I will stop by your table this afternoon and check in person to say hello.

Thank you again!

Lisa

Hi Lisa,

The info is under review but, yes, our internal plan is to share with FEMA later today (the precise timing is not known) before the news release is shared with the public/issued.

Janie Acevedo (Cc'd here) and myself are here at the JFO, so you can check in with either of us throughout the day. We'll let you know as soon as we have any updates.

Best,

Soledad Calvino

Good morning Elias,

Just checking on the status of the well tests...do you think it will go out today? Catherine estimated yesterday that it might be this morning so I was just checking with you.

Thanks,

Lisa

Elias,

Please communicate directly with Lisa Accordini, the FEMA External Affairs person assigned to the FEMA JFO in San Juan regarding the timeline for outreach to our partner agencies. She also would like to get a copy of what you plan to release to the public before it is released so that she can brief her contacts. Lisa is copied on this email. Thanks.

Cathy

Subject: Dorado results roll out

ELIAS IS OFF TODAY:

David, on our desk at the REOC I left Dorado materials for MONDAY's rollout. __ Namely, Carmen's email to guide the roll out, the TP's provided by the EU to guide Carmen's conversation with our partners and an early draft of text for the eventual email. __ Note that in addition to Pete's email from yesterday, Catherine Young called yesterday to relay FEMA's concern and desire to know our results before they go into a news release. Dan Stoneking demobilized, don't recall the new JIC head but in addition to him FEMA leadership besides the ESF 15 wants a heads-up.
